Portfolio: <https://kyle-gibson.github.io/Responsive-Portfolio/>

LinkedIn: <https://www.linkedin.com/in/kyle-gibson-ab7a66a0/>

TECHNICAL SKILLS

Proficient in: HTML, CSS, JavaScript, AJAX, jQuery, Node.js, HTML5.

PROJECTS

Work Day Planner

This application was designed to help the user budget time for their daily activities across the span of a standard work day.

- Languages used: HTML, CSS, JavaScript
- Application Link: <https://kyle-gibson.github.io/Work-Day-Planner-HW/>
- Link to code: <https://github.com/kyle-gibson/Work-Day-Planner-HW>

Password Generator

This application was designed to help the user set up a unique and random password. The user would answer a series of short prompts to customize the password prior to generating it.

- Languages used: HTML, CSS, JavaScript
- Application link: <https://kyle-gibson.github.io/Password-Generator-HW/>
- Link to code: <https://github.com/kyle-gibson/Password-Generator-HW>

Code Quiz

This application was designed to have the user take a quiz that had 5 questions in 1 minute. Getting a question wrong resulted in losing 8 seconds. Once all questions had been answered the user could save their score in local storage for further comparison upon subsequent completions of the quiz.

- Languages used: HTML, CSS, JavaScript
- Application link: <https://kyle-gibson.github.io/Code-Quiz/>
- Link to code: <https://github.com/kyle-gibson/Code-Quiz>
